## Material Safety Data Sheet

### MSDS

Product Name                    Henna Paint  
Other Names                    Colour Henna Paint  
Barcode Number  
Recommended                    Use Paint for use on skin.  
Restrictions on Use            None known

Colors: Bubblegum Pink, Neon Pink, Red, Coral, Neon Orange, Lemonade, Yellow, Neon Green, Green, Emerald Shimmer, Teal, Mint, Neon Blue, Blue, Sapphire Blue Shimmer, Purple, Aubergine, Brown, Espresso Shimmer, Rose Gold Shimmer, Grey, Pewter Shimmer, Silver Shimmer, Gold Shimmer, Black, White, Natural Glow.

Ingredients – Aqua (water) talc, propylene, carbon black, mica, titanium dioxide

### Hazards Identification

Classification of the hazardous chemical

Physical hazards: Not classified

Health hazards: Not classified

Environmental hazards: Not classified

### Label elements, including precautionary statements

Hazard symbols: None

Signal word:                    None Hazard Statements The mixture does not meet the criteria for classification.

### Precautionary statements

Prevention:                    Observe good industrial hygiene practices.

Response:                    Wash hands after use.

Storage:                    Store in well ventilated place. Keep container tightly closed.

Disposal:                    Dispose of contents and container in accordance with local regulations.

### Ingredient Composition / Information

Chemical Entity	CAS No.	Proportion (to 100%)
1,2-Benzisothiazolin-3(2H)-one	2634-33-5	0.03 %
Methanol	67-56-1	<0.005%
Formaldehyde	50-00-0	<0.001%

Non-hazardous components to 100 %

## Description of necessary first aid measures

**Eye:** Irrigate with copious quantities of water for atleast 15 minutes, lifting eyelids occasionally. Seek medical attention.

**Skin** Wash off with soap and water. If any symptoms arise seek medical attention.

**Inhalation:** Move to a well ventilated area. Seek medical attention if symptoms persist.

**Swallowed** Rinse mouth with water. Give water to drink. Seek medical attention if symptoms persist.

**Personal protection for first aid responders** Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.

**Symptoms caused by exposure:** Direct contact with eyes may cause minor irritation. Direct contact with skin may cause minor irritation.

**Medical attention and special treatment** Provide general supportive measures and treat symptomatically. Keep under observation as symptoms may be delayed. Seek medical attention if symptoms persist.

## Fire Fighting Measures

### Extinguishing equipment

**Suitable:** Water, fog, foam, dry chemical powder, carbon dioxide. When choosing extinguishing equipment be aware of any potential hazard(s), example electrical.

**Unsuitable:** Anything that could spread the fire and or risk the safety of surrounding personnel.

**Specific hazards arising from the chemical:** This product is water based and does not burn. It may however support combustion when the water has been removed and gases hazardous to health maybe formed. Specific protective equipment and precautions for fire fighters Self-contained breathing apparatus (SCBA) and full protective clothing (PPE) must be worn in case of fire.

Hazchem Code Not available.

General fire hazards No unusual fire or explosion hazards known.

### Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Keep unnecessary personnel away and upwind of spill / leak. Wear appropriate protective equipment and clothing during clean up. Contain spill to prevent contamination to drains / water ways. Local authorities should be contacted if spill cannot be contained. Collect and seal in clearly and properly labelled containers for disposal in accordance with local regulations.. For emergency responders Keep unnecessary people away. Heed advice under "Personal Protection".

Environmental precautions : Avoid discharge to drains, water ways or onto the ground.

Methods and materials for containment and clean up: Large spills – Stop flow of material, if safe to do so.

Contain spill where possible. Absorb spill in sand, vermiculite, dry earth or other inert absorbent material.

Collect and seal in clearly and properly labelled containers for disposal in accordance with local regulations.

Small spills – Wipe / clean up with absorbent material, e.g. cloth.

### Handling & Storage

Precautions for safe handling: Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

# PAVAN

**Conditions for safe storage, including any incompatibilities** Store in a cool, sheltered location away from direct sunlight and sources of heat. Keep containers tightly closed at all times when not in use. Store in clearly labelled containers.

**Exposure Controls / Personal Protection Occupational exposure limits (OEL's)** No OEL's noted for this specific product. However, for individual components, Formaldehyde 50-00-0 1.2 mg/m<sup>3</sup> (TWA) 2.5 mg/m<sup>3</sup> (STEL) Methanol 67-56-1 262 mg/m<sup>3</sup> (TWA) 328 mg/m<sup>3</sup> (STEL) **Biological limit values** No biological exposure values noted for this product. **Appropriate engineering controls** Use in a well ventilated area. If required use local exhaust ventilation. Provide an eyewash station.

**Individual protection measures**, for example personal protective equipment (PPE)

Eye protection Wear safety goggles.

Skin protection Wear impervious gloves.

**Hygiene measures** Use and maintain good industrial hygiene. Always wash hands after use. Routinely wash and maintain safety equipment and clothing. Do not eat, smoke or drink when handling this product.

## Physical & Chemical Properties

Appearance Coloured, thixotropic liquid.

Odour Slight odour

Odour threshold Not available

pH between 7.0 – 8.5

Melt point / freeze point Not available

Boiling point Not available

Flash point Not available

Flammability Not flammable (In liquid form)

Vapour Pressure Not available

Vapour Density Not available

Relative density Not available

Solubility in water Dispersible

Specific Gravity between 1.00 – 1.20

**Stability & Reactivity Reactivity** This product is considered to be non-reactive under normal conditions of use, storage and transport.

**Chemical stability** This product is considered to be stable under normal conditions of use, storage and transport.

**Possibility of hazardous reactions** No hazardous reaction known under normal use.

**Conditions to avoid** No specific data available for this product.

**Incompatible materials:** Strong oxidising agents and acids.

**Hazardous decomposition:** If engulfed in fire product may give rise to the release of obnoxious fumes including oxides of carbon.

## Toxicological Information

Information on possible routes of exposure

Inhalation: No adverse effects expected due to inhalation

Skin contact: Minor irritation may be expected in some individuals.

# PAVAN

Eye contact: Minor irritation may be expected in some individuals.

Ingestion: Expected to be low ingestion hazard.

## Mehndi Maestro

info@pavanonline.com

www.pavanonline.com

Symptoms related to exposure: Minor irritation in some individuals,

Skin contact - symptoms may include redness, heat and itching.

Eye contact - symptoms may include stinging and redness.

Acute No specific data available.

Skin corrosion / irritation

Prolonged skin contact may cause minor irritation in some individuals.

Serious eye damage / irritation

May cause minor irritation in some individuals.

Respiratory or skin sensitisation

Not a respiratory sensitizer.

Not expected to cause skin sensitisation.

Carcinogenicity No data available.

Reproductive toxicity: This product is not expected to cause reproductive or developmental effects.

Additional Information: This product does NOT contain,

Egg, dairy, soy, seafood, shellfish, wheat or peanut products, by-products or derivatives.

## Ecological Information

Ecotoxicity No specific data is available for this product. However, do not release this product or any water contaminated with this product into drains, soils or waterways. Sufficient measures should be taken to retain the water used in extinguishing any fires involving this product.

Dispose of contaminant in accordance with local landfill or incineration regulations.

Persistence and degradability: No specific data available.

Bio accumulative potential: No specific data available.

Mobility in soil No specific data available.

Disposal Considerations

Disposal methods Dispose of this product and any water contaminated with this product in accordance with local regulations.

Contaminated packaging

# PAVAN

The container in which the product is/was contained should also be disposed of in accordance with local regulations.
