Product name: Jagua Henna

Substance Ingredient	% Content by Vol	CAS Number	EINECS number
Genipa Americana**	85% < X < 100%	6902-77-8 (Genipin)	310-127-6
Xanthan gum	2% < X < 6%	11138-66-2	234-394-2
Citric acid	0.5% < X < 3%	77-92-9	201-069-1
Potassium sorbate	0.5% < X < 3%	110-44-1	203-768-7
Olive Squalane	1% < X < 5%	84604-14-8	283-291-9
Sodium Benzoate	0.1% < X < 0.5%	532-32-1	208-534-8

Because there is no specific CAS number nor EINECS number allocated for the watery Genipa Americana solution, information for each active ingredient is provided below:

**Genipa Americana - Genipin is extracted and contained within a solution of aqua and Genipin. By nature of the extraction process we estimate that Genipin levels are $< 7.8 \pm 0.3$ mg/g. Other naturally forming chemical constituents of the Genipa Americana fruit pulp can also be contained within this solution. Such present constituents may be: D Mannitol, Carbohydrates, Tartaric Acid, Genipic acid, Hydatoin, Caffeine & Calcium.
